The reporter visited the company's office at 432 Canal street and saw the Treasurer, Mr. E. A. Smith.

"How much ice is consumed annually in New York and Brooklyn?"

"About four million tons, I should judge," said Mr. Smith.

Does the demand increase from year to

"Yes. Although the introduction of the cold-air machines into breweries for cooling beer deprived us of a great deal of trade, we do more business now than ever before. But one family in ten used ice five years ago; now nearly every family has to be supplied. The small consumers, in the aggregate, use more ice than the saloons and markets.

"It is expensive work to serve a large number of patrons who take but a small piece of ice each day. We only charge them 5 or 10 cents a day and the ice has to be hauled in many instances up five or six flights of stairs. It is not the ice that makes the expense; it's the help we hire to handle it.

IS THE DOG TAX LEGAL?

The Question Raised by Men Who Protest

Waiter Halligan, ex-champion feather-weight boxer, has gone into strict training for the one-half mile rus.

The Gramercy Boat Club has been fitting up its boat-house. It has now one of the neatest houses on the Hariem. Against Paying the License. Opposition to the payment of the dog tax is growing quite strong in this city, and a good deal of trouble is experienced in collecting it. S. L. Downing, of No. 201 Dean street, paid the tax under protest a few days ago. He takes the ground, as Furman T. Nutt, the hatter, did several mouths ago, that the tax is unconstitutional. Mr. Nutt was sued by the city for the violation of a city ordinance in not licensing his dog, but the decision of the Court, or rather the lack decision, in his case showed that the authorities had no substantial ground for enforcing the tax.

Mr. Nutt was seen by a reporter of THE WORLD and asked for a statement of his case. He said: Mr. Nutt was seen by a reporter of The World and asked for a statement of his case. He said:

"I have been called upon every year for ten years or more to pay this tax, but I always refused and never have paid a cent. I have spent more in not paying than I would if I had paid, but I was advised not to pay and have fought against it, as, to my mind, it is an imposition. I have often had two and sometimes three dogs. If the city believes it has any claim upon me it can go back ten years. I admit owning the dogs and have one now. It is the same dog that I refused to pay the tax for a few months ago. One of the newspapers stated that the reason no decision had been given by the court in my case a few months since was because the dog had died. It is not dead and is now in the country. Why, I know lots of people who are around the City Hall every day and have had dogs for years and never paid for them. They boast of it. They know well enough that the tax cannot be enforced. Why, there would be just as much sense in taxing a canary bird or a horse as there is in taxing dogs. There is to day a personal tax, but how many pay it?"

"Have you any idea what the dog tax amounts to yearly in this city?"

"About \$8,000 or \$9,000, and the city does not get one cent of it. The papers are obtained and the tax paid at the City Clerk's office. Most of this money goes to the Police Pension Fund, and that is the reason the police are so active in finding citizens who have not ficensed their dogs and reporting them at Headquarters."

"The liepublican priv owes its existence to women. In 1844 Abby Kelty laid the foundation for the Free Sail party, from which came this, with "Freemont and Jessie" it gained its first victory in 1854, for it was a victory inough Bucharan was sedes. In 1890 women gave to the country the lives and fortunes of fatters, sons and drainless, and Anna Dickinson turned the stockful States towards the Union. The work of woman during the war needs no recounting, but their self-aunogation in working for the entracetisement of the nour with being themselves distranchised is past history. Three bundred and sixty thousan's women as in Sunner a petition for the "male parion of slaves. It was our woman suffrage leaders who did this. In 1896 women hegan to petition for one to the first of the private longer that the negroes might be first. In 1898 it was the same.

"In 1873 the party platform said: "The Republican party is mindful of its obligations to the loyal women at ments of the loyal woment and retry to the loyal woment and retry to the loyal woment and ments in the loyal capacity is mindful of its obligations to the loyal woment and ments and the loyal woment and the loyal and loyal loyal

ince it was the same.

'In 1872 the party platform said: 'The Republican party is mindful of its obligations to the loyal womens of America for their mobie devotion to the outse of freedom; their admission to wider fields of usefulness is viewed with satisfaction, and the honest demands of eny class of citizens for additional rights should receive respectful consideration.' Leading women advocated the party cause and it was trumphant by the largest majority that they ever received. In 1876 women were lighted, in 1880 the suffrage women from every State in the Union held a meeting, and 10,000 postal cards were received from women not present who wished to vote. The convention was solutiful of this described by the suffrage women the received from women in the committee rejected to vote. The convention was solutiful in 1884 half a million women of the W. C. T. U. asked for a temperance plank, but the committee rejected their petition, more ing and spitting upon it. This solled petition is plastred in the Chicago Historical Library.

'Now, in 1888 we were courteously received by your committees and listened to for their minutes, and again the platform is silent. Although the majority of men who help us in Congress are Republicans, yet, as forbearance has ceased to be virtuous, we one case to hope for justice from the Republicans as a party and look to the Prohibitionists, who have always recognized woman's equality with man. Yet, mindful of the past, we ask you to so construe your platform as to inclinde women in the term citizens, to whose personal rights and liberties you affirm unswerving devo-tion. Will you not have such resolution to rought before the convention and allow us to s, c, k in its behalf?

HOW'S THIS FOR A CAMPAIGN?

Crowd Cathers in Breadway to Hear at Extemporaneous Tariff Discussion.

The question of Free Trade versus Protection has ntered into the present campaign with a vigor. Last night about 11 o'clock a crowd of fully one oundred and fifty persons gathered at the corner o Twenty-third street and Fifth avenue watching the miletins from the seat of war at Chicago. They were mostly well-dressed, prosperous-looking young men, with a goodly sprinkling of older ones. The protection advocates were represented by an old fellow who referred to the duty on steel ralls and the trade in that commodity, which, he claimed, had prospered under protection. His opponent, a young clothing merchant met him and went him

young clothing merchant met him and went him one better.

The majority of the growd did not incline to free trade, but to "freer trade." The discussion became general, and was at times heated. Fedestrians on Broadway stopped to sectrain what the crowd were doing, and at one time the speciators numbered more than two hundred. Three cheers were given for Cleveland with z will, and three fainthearted ones were chorused for the Republican party. The sight of a political debating party on Broadway was something unusual, and it was very unique, to say the least.

GRAND RIVER, Que., June 23. - A gale that caused great loss of life and property set in here on Wednesday. Boa's fishing on the Miscon Banks were swept away, and as far as can be ascertained up to to-day aix men were drowned. The Govern-ment cruiser Brydges found a host overturned, in which, when righted, the dead body of one Shuon Lancup, of this place, was found entsacied in a trawl line. Lancup's brother is among the missing.

"Oh, well. I suppose there is nothing for it but to send in my papers."
Thus saying, Almayne swaggered moodily

out of the shop.

It really seemed too bad, he thought as he strolled down Bond street, to be landed for the want of a paltry £200. He knew it was hopeless to apply to his long-suffering uncle again. Indeed, that worthy had told him but again. Indeed, that worthy had told him but a few days before that he would not let him have another farthing until he had landed at Alexandria; and as for applying to any of his friends, Almayue smiled sardonically at the "Doesn't like leaving Topsy," suggested Mr. Delany to his companion, Mr. Briggs.

"I don't believe they could raise even a hundred between them, at three days' no-tice," he said to bimself, "Still, if only there was a little time, I might manage it some-But the regiment was to sail in a week, and

But the regiment was to sail in a week, and Almayne knew the tailor well enough to be certain that, unless the money were forthcoming, he would be served with a writ of nerved regno before the end of that period. He racked his brains for a plan of escape, but none occurred to him. Under these melanchely circumstances, Bond street had no charms for him. Even the Burl ngton had lost its attractions. He passed a couple of old friends without seeing them, so deeply

spearation keenly—for a formicht. So will she—till she lands another fish. Poor old Bertie."

Almayne went straight to his rooms in Clarges street, and remained these till 8 o'clock.

"Must dine somewhere," he said gloomily, as the clock strack and roused him from his reverie. "Don't like to go to the club, though. Fellows will be sure to say sucharitable things when I send in my papers."

So at last, having arrayed himself anitlessly in a sait of Mr. Misely's close-fitting attire, he wended his way to a neighboring grill-room, where he ordered a sole au grain and a Charenbriand a in Berranse, supplemented by a bottle of Irroy to sasist in drowning dull care.
